Northwestern University

ONE HUNDRED AND FORTY-NINTH
ANNUAL COMMENCEMENT

6 P.M., FRIDAY, JUNE 15, 2007

RYAN FIELD
EVANSTON, ILLINOIS

UNIVERSITY SEAL AND MOTTO

Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words *Northwestern University, Evanston, Illinois*.

Thirty years later Daniel Bonbright, professor of Latin and a member of Northwestern's original faculty,

redesigned the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of Saint John, chapter 1, verse 14, translating to *The Word . . . full of grace and truth*. Circling the book are the first three words, in Latin, of the University motto: *Quaecumque sunt vera* (Whatsoever things are true). The outer border of the seal carries the name of the

University and the date of its founding. This seal, which remains Northwestern's official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Paul the Apostle to the Philippians, chapter 4, verse 8 (King James Version).

NORTHWESTERN UNIVERSITY

*Whatsoever things are true,
whatsoever things are honest,
whatsoever things are just,
whatsoever things are pure,
whatsoever things are lovely,
whatsoever things are of good report;
if there be any virtue,
and if there be any praise,
think on these things.*

HENRY S. BIENEN

President

Henry S. Bienen was elected the 15th president of Northwestern University on June 13, 1994. He took office on January 1, 1995.

Mr. Bienen was the James S. McDonnell Distinguished University Professor and dean of the Woodrow Wilson School of Public and International Affairs at Princeton University prior to his appointment at Northwestern.

A political scientist with interests in political and economic development, comparative politics, civil-military relations, and U.S. foreign policy, Mr. Bienen began his association with Princeton University in 1966 as an assistant professor. He was named associate professor of politics and international affairs at Princeton in 1969 and professor of politics and international affairs in 1972. He was appointed the William Stewart Tod Professor of Politics and International Affairs at Princeton in 1981 and the James S. McDonnell Distinguished University Professor in 1985.

Mr. Bienen is one of three university presidents awarded the Carnegie Corporation Academic Leadership Award for innovative leadership in higher education. The honor carries a \$500,000 award for the institution and recognizes leaders of institutions of higher education who have demonstrated an abiding commitment to liberal arts and who have initiated and supported curricular innovations, including development of interdisciplinary and multidisciplinary programs that aim to bridge the gulf between the theoretical and the practical.

Mr. Bienen is a member of the board of directors of the Bear Stearns Companies Inc. and Rasmussen College, Inc. He is a member of the board of directors of the Council on Foreign Relations, serving on the executive committee and chairing the nominating and governance committee.

Also a member of the board of directors of the Chicago Council on Global Affairs, he serves on its executive committee. As a member of the Argonne National Laboratory's Board of Governors, he serves on the board's executive, nominating, and auditing committees.

Other board and trustee memberships include JSTOR and Steppenwolf Theatre. Mr. Bienen is chair of the executive committee of the Association of American Universities, a member of the American Political Science Association, and a member of the Knight Commission on Intercollegiate Athletics.

Mr. Bienen has been a visiting professor at Makerere College in Kampala, Uganda (1963–65), at University College in Nairobi (1968–69), at Columbia University (1971–72), and at the University of Ibadan (1972–73). He was a fellow at the Center for Advanced Studies in Behavioral Sciences at Stanford University (1976–77), a Polsky Fellow at the Aspen Institute (1982–83), and a member of the Institute for Advanced Studies at Princeton (1984–85).

Mr. Bienen has been a consultant to the U.S. Department of State (1972–88), the National Security Council (1978–79), the Agency for International Development (1980–81), the Central Intelligence Agency (1982–88), and the World Bank (1981–89). He served as a member of the senior review panel of the CIA in the late 1980s.

He also has been a consultant to Hambrecht and Quist Investment Company, the Boeing Corporation, and the Carnegie Corporation as well as to the Ford Foundation, the Rockefeller Foundation, and the John D. and Catherine T. MacArthur Foundation.

He served as a member of the Committee on Roles of Academic Health Centers in the 21st Century at the National Academies' Institute of Medicine and on the board of the University Corporation for Advanced Internet Development (Internet 2) from 1998 to 2002.

Mr. Bienen received a bachelor's degree with honors from Cornell University in 1960 and a master's degree from the University of Chicago in 1961. He was awarded a PhD from Chicago in 1966. In 2000 he received the University of Chicago Professional Achievement Alumni Award.

Mr. Bienen and his wife, Leigh, a senior lecturer at Northwestern University School of Law, have three daughters, five grandsons, and one granddaughter.

PATRICK G. RYAN

Chair, Board of Trustees

Patrick G. Ryan is founder and executive chairman of Aon Corporation, a global leader in risk management, insurance and reinsurance brokerage, human capital consulting, and outsourcing. He started as an entrepreneur, founding an insurance agency with a staff of five in 1965; it grew to become Aon, with more than 500 offices in 120 countries.

Ryan has been chairman of Aon's board of directors since 1990. He served as chief executive of Aon and its predecessor company from 1964 to 2005.

In addition to chairing Northwestern's Board of Trustees, Mr. Ryan is a director of the Chicago Bears Football Club, Inc. One of Chicago's most visible business and civic leaders, he is chairman and CEO of the Chicago 2016 Olympic Evaluation Committee.

Mr. Ryan was named the 2002 International Executive of the Year for corporate integrity by Brigham Young University. He has also received the Horatio Alger Association of Distinguished Americans Award. Mr. Ryan received the 2005 Lifetime Achievement Award from the *Review-Worldwide Reinsurance* in London. The Chicago Council on Foreign Relations honored him with its 2006 Chicago Leadership Award for his contribution to building the city's international stature through corporate philanthropy, civic leadership, and business.

His numerous other tributes include 2001 Man of the Year, the Greater Chicago Chapter of the Juvenile Diabetes Research Foundation; 1997 Executive of the Year

Award, *Crain's Chicago Business*; Insurance Leader of the Year, College of Insurance; the Order of Lincoln Medallion, Illinois's highest award, recognizing a lifetime of accomplishment; the Business Statesman Award, Harvard Business School Club of Chicago; the Distinguished Leadership Award, Chicagoland Chamber of Commerce; the Chicago Historical Society's Marshall Field History Maker Award for Distinction in Corporate Leadership and Innovation; the Distinguished Citizen Award, Chicago Area Council of Boy Scouts of America; the President's Medal, Loyola Academy; 1999 Free Enterprise Award, the Insurance Federation of New York; and the Distinguished American Award, Chicago chapter of the National Football Foundation and College Hall of Fame. Mr. Ryan is also a member of the Chicago Business Hall of Fame and a member and past president of the Economic Club of Chicago.

Mr. Ryan and his wife, Shirley, were awarded the 1998 Distinguished Philanthropist Award. They founded and are active in the Pathways Center and the Pathways Awareness Foundation, dedicated to serving the needs and interests of children and young people with physical-movement difficulties.

Mr. Ryan received a bachelor's degree in business from Northwestern in 1959.

HISTORY OF NORTHWESTERN

The founding of Northwestern University by nine devout Methodists embodied a mixture of religious conviction and secular optimism that is uniquely American. Meeting above a hardware store in the burgeoning frontier town of Chicago, these nine men resolved on May 31, 1850, to establish an institution of “the highest order of excellence” to serve the people of the original Northwest Territory as established by the Northwest Ordinance of 1787 (Ohio, Indiana, Illinois, Michigan, Wisconsin, and part of Minnesota). The 1851 Act of Incorporation creating Northwestern University contained a provision reflecting the strong religious beliefs of its founders but requiring no particular religious faith of students or members of the faculty.

Only one of the founders, physician John Evans, was a college graduate. The quintessential renaissance man, he built railroads, founded both the Illinois Medical Society and the Illinois Republican Party, and was a confidante of Abraham Lincoln, who appointed him governor of the Colorado Territory. Evans guided Northwestern during its critical early years, chairing the Board of Trustees from the time of the University’s founding in 1851 until his death in 1897. The town that grew up around Northwestern was named Evanston in his honor.

Northwestern grew and prospered under Evans’s stewardship. In 1853 the University bought and began to develop 379 acres of lakeshore farmland. By 1855 the University had completed its first building and opened a College of Liberal Arts comprised of two faculty members and ten male students. By 1869 Northwestern had admitted its first female students; four years later, it negotiated a merger with the Evanston College for Ladies, whose president, eminent suffragette and temperance movement leader Frances E. Willard, became Northwestern’s first dean of women.

At the turn of the century Northwestern consisted not only of a liberal arts college but also six undergraduate and graduate professional schools, including the schools of law and medicine in Chicago. With the establishment of the Graduate School in 1910, Northwestern adopted the German university model of providing graduate as well as undergraduate instruction, emphasizing research along with teaching.

The University’s development since then has paralleled the growth of metropolitan Chicago. Today Northwestern is a private research university of distinction, with 11 academic divisions located on two lakefront campuses in Evanston and Chicago; it has approximately 2,500 full-time faculty, 14,000 full-time students, and an annual budget of almost \$1.5 billion. Northwestern’s vision of excellence — although faithful to its founding — invigorates a territory far beyond the old Northwest Territory through the accomplishments of its alumni and by virtue of a distinguished faculty and highly selective student body drawn from across the nation and around the world.

SCHOOLS OF THE UNIVERSITY

The **Judd A. and Marjorie Weinberg College of Arts and Sciences**, established in 1851 as the College of Liberal Arts, offers the degree of bachelor of arts. Through the School of Continuing Studies, the Weinberg College of Arts and Sciences also offers the degrees of bachelor of philosophy and bachelor of science in general studies.

The **School of Communication**, established in 1878 as the School of Oratory and later renamed the School of Speech, offers the degrees of bachelor of arts in communication, bachelor of science in communication, master of science in communication, and doctor of audiology. Through the School of Continuing Studies, the School of Communication also offers the degree of bachelor of philosophy in communication.

The **School of Continuing Studies**, established in 1933 as University College, offers courses leading to the degrees of bachelor of philosophy and bachelor of science in general studies, conferred by the Weinberg College of Arts and Sciences; the degree of bachelor of philosophy in communication, conferred by the School of Communication; the degrees of master of arts in liberal studies, literature, creative writing, and public policy and administration, conferred by the Graduate School; and the degrees of master of arts in sports administration and master of science in computer information systems.

The **School of Education and Social Policy**, established in 1926 as the School of Education, offers the degrees of bachelor of science in education and social policy, master of science in education and social policy, and master of science in learning and organizational change.

The **Robert R. McCormick School of Engineering and Applied Science**, established in 1909 as the College of Engineering, offers the degrees of bachelor of science, master of biotechnology, master of engineering management, master of product development, master of science in information technology, and master of science in project management.

The **Graduate School**, established in 1910, administers all advanced programs leading to the degrees of doctor of philosophy, master of arts, master of fine arts, master of public health, and master of science.

The **Medill School of Journalism**, established in 1921 and named in honor of pioneering Chicago journalist Joseph Medill, offers the degree of bachelor of science in journalism as well as master of science degrees in journalism and integrated marketing communications.

The **School of Law**, established in 1859, offers the degrees of juris doctor, master of laws, master of laws in international human rights, master of laws in taxation, master of studies in law, and doctor of juridical science. The school also offers the Master of Laws International Executive Master's Program in South Korea and Spain.

The **J. L. Kellogg School of Management**, established in 1908 as the School of Commerce, offers the master of business administration degree. In addition to the full-time program, Kellogg also offers the evening Managers' Program on the Chicago campus, the weekend Executive Master's Program on the Evanston campus, and the International Executive Master's Program in Canada, Germany, Hong Kong, and Israel.

The **Feinberg School of Medicine**, established in 1859 as the Medical School, offers the degrees of bachelor of science in medicine, doctor of medicine, and doctor of physical therapy.

The **School of Music**, established in 1895, offers the degrees of bachelor of music and bachelor of arts in music. In its graduate division, the School of Music offers the degrees of doctor of music and master of music and the certificate in performance.

ACADEMIC PROCESSION AND DRESS

ACADEMIC PROCESSION

The procession begins with the participating schools of the University. Each school group is preceded by its banner. The formation within each school begins with those graduates receiving the highest degree awarded by that school; doctoral candidates are followed by master's candidates, who in turn are followed by bachelor's candidates. Following the graduates are the University faculty, trustees, administrators, and deans. The president's party, led by the senior class Commencement committee, completes the procession.

ACADEMIC DRESS

Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide warmth in poorly heated buildings and to differentiate scholars from other citizens. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States most academic dress follows the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the gowns' trim and sleeve design indicates the level of the degree. The bachelor's gown has pointed sleeves and is worn closed; the master's gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor's gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves.

This velvet trim may be black or the prescribed color of the academic area.

Though the recommended color for gowns is black, Northwestern University (like many institutions) has adopted a colored gown to reflect the school's color. All participating candidates wear a custom purple gown featuring the University crest. Graduates of foreign universities wear gowns of various colors.

The style of hood identifies the level of the degree, the school that granted it, and the academic area. Hood length and border width show the level of the degree. The bachelor's hood, which is optional and not worn at Northwestern University, is three feet in length; the master's, three and one-half feet; the doctor's, four feet. The velvet border of the hood is two, three, and five inches wide for the bachelor's, master's, and doctor's degrees, respectively. The hood is lined with silk in the official color of the school. At Northwestern the hood is lined in purple (the school's color) and gold. The color of the hood's border — and at Northwestern the color of the cap's tassel as well — indicates the academic area. Tassels feature the Northwestern seal signet and are worn on the left side at all times. At Northwestern the colors for the Graduate School constitute an exception; tassels are black, but the border color of the hood indicates the specific degree awarded. Bachelor's degree regalia include a souvenir stole.

The square black mortarboard is the recommended cap, although some schools have adopted other styles. Caps are worn throughout the Commencement ceremony, except that men remove

them for the national anthem, invocation, and benediction.

At Northwestern University members of honor societies may be recognized by the honor cords, medallions, and stoles worn.

The tassels and borders of the hoods are the following colors:

HONORARY DEGREES

JOHN W. BALDWIN

Doctor of Humane Letters

An internationally eminent scholar in the field of medieval French history, John Baldwin is the Charles Homer Haskins Professor of History Emeritus at Johns Hopkins University. His books *Masters, Princes, and Merchants: The Social Views of Peter the Chanter and His Circle* (1970), *The Government of Philip Augustus: Foundations of French Royal Power in the Middle Ages* (1986), and *The Language of Sex* (1994) represent seminal contributions to his area of specialization, French history in the decades around 1200. A fellow and past president of the Medieval Academy of America and winner of its Charles Homer Haskins Medal, Baldwin is a fellow of the American Academy of Arts and Sciences, a corresponding member of the British Academy and Royal Danish Academy of Sciences and Letters, and a chevalier of France's Légion d'Honneur and Ordre des Arts et des Lettres.

Presented by by Robert E. Lerner, Peter B. Ritzma Professor in the Humanities, Department of History, Judd A. and Marjorie Weinberg College of Arts and Sciences

For your painstaking research and incisive scholarship, you are widely recognized as one of the world's leading historians of the Middle Ages. In exploring medieval French history, you have combed unpublished sources to develop groundbreaking and influential insights into the era's views on education, religion, governance, and sexuality. Your work has brought you numerous distinctions, including election to the American Academy of Arts and Sciences as well as the Charles Homer Haskins Medal of the Medieval Academy of America, of which you are a past president. For the illumination you have shed on France's past, that nation has named you a chevalier of both the Légion d'Honneur and the Ordre des Arts et des Lettres. We are delighted to add to your many honors.

JOAN S. BRUGGE

Doctor of Science

One of America's leading biomedical researchers, Joan Brugge is professor and chair of cell biology at Harvard Medical School, where she joined the faculty in 1997. After graduating from Northwestern in 1971, Brugge earned a PhD in virology from Baylor University and taught at the State University of New York at Stony Brook and the University of Pennsylvania in addition to serving as an investigator with the Howard Hughes Medical Institute and as scientific director of ARIAD Pharmaceuticals. Her research focuses on the molecular basis of cancer, and she recently helped create Breast Cancer 1000, a genetic database listing more than 1,300 genes potentially linked to that disease. Recipient of many awards and a member of numerous scientific advisory boards, Brugge was elected to the American Academy of Arts and Sciences in 2000 and to both the National Academy of Sciences and the Institute of Medicine in 2001.

Presented by by Carole LaBonne, assistant professor, Department of Biochemistry, Molecular Biology, and Cell Biology, Judd A. and Marjorie Weinberg College of Arts and Sciences

In the quest for the causes of cancer, you are one of the nation's most tenacious and innovative researchers. As a leader in developing the Breast Cancer 1000 genetic database, you have advanced our understanding of that disorder while offering an approach with broad potential for combating other diseases. As a scientist with extensive experience in both academia and the pharmaceutical industry, you have received a host of honors, including election to the National Academy of Sciences, the American Academy of Arts and Sciences, and the Institute of Medicine. Your professional eminence is evidenced by appointments to scientific boards in the private sector, government institutes, and educational institutions. In welcoming you back to your alma mater, we are proud to call you one of our own.

LAMBERT BEN FREUND

Doctor of Science

A world-class expert in mechanics and physics of solid materials, Lambert Ben Freund is the Henry Ledyard Goddard University Professor in the Division of Engineering at Brown University. Since earning his PhD from Northwestern, Freund has pursued groundbreaking research in dynamic fracture, mechanical behavior of thin films, and cell adhesion, greatly advancing theoretical knowledge while also offering important technological applications. Currently president of the International Union of Theoretical and Applied Mechanics, he has written books and numerous articles and has served as editor of the *Journal of the Mechanics and Physics of Solids*. His numerous honors include the Society of Engineering Science's 2000 William Prager Medal, the American Society of Mechanical Engineers' 2003 Timoshenko Medal, and election to the American Academy of Arts and Sciences, the National Academy of Engineering, and the National Academy of Sciences.

Presented by Jan Drewes Achenbach, Walter P. Murphy and Distinguished McCormick School Professor, Department of Civil and Environmental Engineering, McCormick School of Engineering and Applied Science

In the areas of fracture dynamics, thin film mechanics, and cell biomechanics, you have achieved eminence as the world's foremost expert. Published in widely influential books and articles, your seminal contributions in these fields not only have advanced our theoretical understanding but have also led to significant technological applications. Your distinguished teaching career at Brown University has launched the careers of many researchers who now hold senior positions at leading universities. Among your many honors are election to the American Academy of Arts and Sciences, the National Academy of Engineering, and the National Academy of Sciences as well as the two highest awards in your field, the Prager and Timoshenko Medals. We are honored to claim you as a member of the Northwestern family.

JULIA LOUIS-DREYFUS HALL
Doctor of Arts

For her breakthrough role as Elaine Benes in the television comedy series *Seinfeld*, Julia Louis-Dreyfus Hall received an Emmy, a Golden Globe, two Screen Actors Guild Awards, and five American Comedy Awards in addition to numerous award nominations. She majored in theater at Northwestern until beginning a three-year stint on NBC-TV's *Saturday Night Live* in 1982. Her subsequent series television credits include *The Art of Being Nick*, *Day by Day*, and the starring role in the innovative comedy *Watching Ellie*. Currently she plays the title role in *The New Adventures of Old Christine*, for which she won the 2006 Emmy for lead actress in a comedy series. Her film credits include *Jack the Bear*, *North*, Woody Allen's *Hannah and Her Sisters* and *Deconstructing Harry*, and the animated features *Animal Farm* and *A Bug's Life*.

Presented by Rives B. Collins, associate professor and chair, Department of Theatre, School of Communication

Since performing in Mee-Ow at Northwestern, you have risen to the heights of the comedic firmament. After appearing in Chicago with the Practical Theater Company and Second City, you moved to television with *Saturday Night Live*. As Elaine on *Seinfeld*, you captivated the nation for nine seasons, winning an Emmy and a Golden Globe. More recently you were awarded a second Emmy for playing the title role in *The New Adventures of Old Christine*. In films by Woody Allen and others, you have extended your range and popularity. Off camera you have been active in environmental organizations and have transformed your own home into a model of green design. We are proud to count you as a Northwestern alumna and to count ourselves among your biggest fans.

FRED DOUGLAS WILSON III
Doctor of Fine Arts

New York-based artist Fred Wilson has achieved national renown for museum installations that explore issues of race and colonialism by displaying objects in unexpected contexts. Winner of a 1999 "Genius Grant" from the John D. and Catherine T. MacArthur Foundation, Wilson represented the United States at the 1992 Biennial Cairo and the 2003 Venice Biennale. He has received awards from the New York Foundation for the Arts, the New York State Council on the Arts, and the National Endowment for the Arts and has been the exclusive subject of six monographs. Of his 27 individual shows, perhaps the best known is "Mining the Museum" at the Maryland Historical Society in Baltimore; winner of the American Association of Museums Curators Committee's 1993 Excellence in Exhibition Competition, the exhibit displayed artifacts of slavery in a new and provocative light.

Presented by Huey Copeland, assistant professor, Department of Art History, Judd A. and Marjorie Weinberg College of Arts and Sciences

A great artist teaches the world to see in new ways, and this is exactly what you have done in your landmark museum installations. By rearranging existing collections to subvert established narratives, you have forced us to see ordinary objects in a new light, showing how art and culture are shaped by social and economic forces. Your work has prompted new understandings of racism while making us ponder the very nature of museums. As *New York Times* critic Holland Cotter said, you have "pumped air into the museum so it's as big as the world outside." Among your many honors are a MacArthur "Genius Grant" and your selection as U.S. representative for the 2003 Venice Biennale. We take pleasure in saluting your remarkable achievements.
